SHADOW OF ELVARG

FAQ DOCUMENT

GENERAL

Q: I'm not sure if I have the right number of equipment cards, do Recipe Books count?

A: Yes, Recipe Books are counted as part of the 29 Equipment & Consumable Cards listed on page 5 of the Shadow of Elvarg rulebook.

Q: I'm not sure if I have the right number of event cards, are there 16 in the Shadow of Elvarg set?

A: Yes, however 6 of them have the Elvarg Deck card back and are only used during campaign 4 - Dragon Slayer.

Q: I've sorted all my cards before reading the rulebook and I'm not sure where all my vault cards are?

A: Vault cards have a mixture of different card backs that players may have shuffled into different decks by accident. Vault cards are identified by the number in the top right of the card. The vault deck you need for campaign one consists of cards numbers 0 to 54. The set up section of each subsequent campaign will list any vault cards that need to be added to the vault deck.

SHADOW OF ELVARG CARD PACK ORDER

For those who wish to sort their card packs into their original order for the tutorial. When stacking these decks, place the top listed card face down, then the second listed card on top, then the third, and so on.

In the case of exploration cards, since those cards don't have a title, the first few words of each card's top entry are shown instead.
