

RUNESCAPE® KINGDOMS

SHADOW OF ELVARG

STORAGE GUIDE

ORGANISE YOUR STORAGE TRAY

This sheet will show you how to store the RuneScape Kingdoms: Shadow of Elvarg components between each campaign session. Before storing your game, each player should make a note of their current XP for each skill or take a photograph of their character sheet and the clan bank.

If storing your game in the middle of a campaign, make a note or take a photograph of the game board, campaign board, and clan bank.

1 CARD STORAGE

In this section there's a foam divider to separate your cards. We recommend storing any cards for your active campaign on one side. Any cards for other campaigns, or cards that have been returned to the box during the game, should be stored on the other side.

2 MINIATURE STORAGE

In this section store your miniatures. Each miniature has its own location designed for its shape and size.

3 DICE STORAGE

In this section store your dice.

4 TOKEN & EQUIPMENT STORAGE

In this section the players store any cards and tokens their character currently has in one of the ziplock bags provided.

Underneath the ziplock bags containing player equipment and tokens, store any remaining tokens.

5 BOARDS & CHARACTER SHEETS

Once your storage tray is full, place your folded game board, campaign boards, character sheets, and rulebook above your tray to keep everything secure. Then replace the box lid.
